2020 UTILITY + STREET IMPROVEMENTS

| City of Adams, MN

Project Update

TENTATIVE SCHEDULE

The Contractor will be performing water main and sewer main construction on Water Street next week. On 5th Street, they plan to finish subdrain installation, road subgrade preparation, and placement of the aggregate base. Boulevard work will also be performed in areas where the curb and gutter has been installed.

ACCESS, GARBAGE, AND RECYCLING

The Contractor will be responsible for maintaining reasonable access to properties during construction and for coordinating garbage and recycling pick-up and mail services. Residents and businesses are asked to mark their garbage and recycling containers with their address using tape. Please deliver the containers to their regular pick-up spot. The Contractor will move them to where they will be emptied and then return them to each property.

CONSTRUCTION FIELD REPRESENTATIVE

ISG will have a construction field representative, Thomas Rients, on site throughout construction. His contact information is available in the Project Contacts list to the right. Feel free to reach out to him with any questions or concerns as the project moves forward.

STAY CONNECTED

Let us know if you'd like to be added to the 2020 Utility and Street Improvements project email distribution list! Email Bryan.Petzel@ISGInc.com.
